

EASTCONN—Where Learning Comes to Life

EASTCONN, one of six Regional Educational Service Centers (RESCs) in Connecticut, is a public, non-profit agency that has been serving the educational needs of schools, organizations, communities, and individuals of all ages in northeastern Connecticut since 1980.

Headquartered in Hampton, EASTCONN's 505 employees work in partnership with 33 towns and 36 boards of education to provide a wide range of cost-effective services that include customized professional development, grant-writing, embedded staff support, school operations support, strategic planning, early childhood and adult education services, as well as technology solutions and cooperative purchasing. In addition, EASTCONN's fleet of 95 vehicles is able to meet a variety of transportation needs.

For more information about EASTCONN and its programs and services, please call EASTCONN's Communications Department at 860-455-0707, or visit www.eastconn.org.

Team-Building & Leadership Activities for Groups of All Ages

EASTCONN Adventure

Let us customize team-building & leadership activities for your group

EASTCONN Adventure can help you build a supportive community, develop positive leaders and create an effective team. Our staff will work with you to custom-design a program that will meet the unique needs of your group. Plan a single- or multi-day Adventure program for your class, group, staff or team at our facility or your facility. Through our experiential activities, participants learn strategies to increase trust and develop communication, leadership and problem-solving skills. Designed for all ages and fitness levels, your EASTCONN Adventure might include portable adventure days, indoor team-building activities, group problem-solving initiatives, high-ropes or low-ropes course challenges, orienteering, rock-climbing, hiking, environmental education activities and/or service-learning projects.

“I made good suggestions and it made me feel confident and that I was important.” (5th grade student)

Through EASTCONN Adventure, your students will explore an educational adventure in learning through experience. We will custom-design a program to meet their unique needs and reach your specific goals. We'll encourage your students to apply their newly acquired knowledge to their lives and their classroom communities. Whether we lead your students in the context of an Interdistrict grant, a field-trip, or a custom-designed program, our team-building activities will provide them with key opportunities for self-discovery and improving their interpersonal skills. Our programs also complement and support your curricular goals.

“I learned that there are many different ways to solve problems. Everybody has different ways of doing things and problems have lots of solutions.” (middle school student)

“The facilitators always come up with ingenious, fun activities that allow both the language and kinesthetic intelligences to work together.” (high school teacher)

EASTCONN Adventure offers custom-designed team-building workshops for staff and faculty. Working together to identify your faculty team's needs, we will facilitate a single- or multi-day experientially based program to help boost morale, encourage positive communication and collaboration, and identify new strategies for working together as a team. EASTCONN Adventure also trains teachers of all grade levels to use adventure-based education in the classroom. Our professional development workshops will give you the tools to implement a community-building process in your classroom.

EASTCONN's Adventure program provides one-day or multi-day professional development programs adapted for different industry sectors. Appropriate for large and small groups of all ages and fitness levels, the experiential activities are designed to explore team-building, communication, diversity, trust, cooperation, problem-solving, and having fun. Our trained staff has worked with non-profit agencies, corporations, professional groups, universities, sports teams and youth groups. We are creative, flexible and open to providing activities that work for you.

“You're only as strong as your weakest member. It takes encouragement to make people successful.” (adult participant)
