

Quinebaug Middle College

## QMC School Counseling Department

*The Quinebaug Middle College School Counseling Department services are based on the belief that every student is unique, developing, capable of learning, and deserving of respect. The program supports students as they begin their journey of understanding themselves and others, as they develop decision-making and problem-solving skills, and fosters their development as life-long learners. It involves the collaborative support of all QMC's staff, students, parents, and community.*
