7. Finance and Facilities Committee updates:

Purchased 21 used buses - financed 75% at 4.05% over a 5 year term. Also purchased transportation facility; will add extension to the building - reviewed all this information with the sub-committees and decided to proceed with purchase. The cash outlay is comparable to what is paid in rent. Will not have to continue to pay ongoing debt service – 10% of rent paid is subtracted from selling price of property. Joan Trivella asked what does the model look like in terms of revenue; are new towns paying for bus service? We do have some new contracts. Yes we have picked up some new districts that will be using EASTCONN for transportation services. The current transportation facility has 3 bays – but none will fit a bus – we will do the renovations to the facility now that we own it. Discussion followed around students that leave EASTCONN schools.

8. **Old Business:**

Head Start Updates:

Enrollment is at 97%; Windham has a lot of vacancies; they have a lot of action plans in place for this program. Good progression of completing goals for families. See the full report in the

packet – the one with a color graph by location. You can see health issues are a significant need in North Windham; also looking for housing and safe environment and parenting skills; developed a matrix that they will be implementing with families; this is part of goal settings and assessment. Also working with the families on job training programs. Discussion followed around undocumented individuals.
