

Streamline Your Workflow

# CT DOTS Online

The Connecticut Documentation & Observation for Teaching System (CT DOTS) framework in an easy-to-use, online platform.

POWERED BY  
**eObserve**  
ONLINE OBSERVATION TOOL

**New  
Features!**

**CT DOTS Online is the only system specifically designed to meet the data entry and analysis demands required by the CT DOTS Framework**

Early childhood professionals, inside and out of the classroom, now have a paper-free method of observing children, collecting evidence/artifacts and evaluating their skills against a standard set of indicators. Available anytime, anywhere and from any device, CT DOTS Online eliminates cumbersome paper processes and streamlines your workflow.

## Benefits of CT DOTS Online

### Teachers/Observers

- Observe and collect evidence as it is happening or input data at a later date
- Run student reports to prepare individualized lessons
- Create narrative summaries for conferences
- Assign one observation to multiple progressions or students
- Collect and assign Family Input from parents with a simple form sent within the software

### Administrators:

- View all student data in real-time in a centralized, online platform, including observations & evidence
- Run reports from the classroom to district/top level
- Run reports based on filtered data such as age or slot funding
- Assign multiple observers to one student
- Create announcements and post resources for your program observers/administrators

## CT DOTS Online Software Training with Onboarding

A subscription to CT DOTS Online includes access to the software's full range of features and an unlimited number of system observers.

Software services include remote support via telephone and email, Monday-Friday, 8:30 a.m.- 4 p.m., software updates and system monitoring.

Onboarding consists of Administrator Training and Group Training for up to 30 teachers/observers. For groups larger than 30, additional fees will apply.

Price dependent on program size and location. Mid-contract upgrades may result in fees, including, but not limited to, seats & extra storage.

Contact EASTCONN's Technology Solutions Application Team at [productsupport@eastconn.org](mailto:productsupport@eastconn.org) or **860-455-1594** for more information.

## Office of Early Childhood (OEC) Endorsed Training Provided by EASTCONN Technical Assistance with the DOTS Framework

EASTCONN's Early Childhood Initiatives group provides consulting, trainings and DOTS orientation. These services are geared toward helping programs understand the DOTS standards on a deeper level.

Topics include:

- Authentic assessment techniques
- Inter-rater reliability guidance for teachers
- Family input as an integral part of the whole child
- Getting started with a new assessment system

Contact: Diane Gozemba at [dgozemba@eastconn.org](mailto:dgozemba@eastconn.org) or **860-455-1518** for more information, or contact your local RESC for training and pricing.
